

Chapter 5 Project

Based on the information given in Chapter 5 on playing card design, research contemporary playing cards on the internet. Using the information you gather design three cards of your own. As a designer you are not bound to think in traditional terms regarding the graphic images on the card. Be creative!

Design one of each of the cards below;

1. A face card
2. The number "7" card
3. The Ace
4. Back of card design

Use whatever software you are most comfortable with, perhaps Illustrator or Photoshop and print your final project in color.. If you are not comfortable with digital software yet, then draw, paint, collage, cut & paste a unique design.
